BLESSED TASELA KOHWORHO

Web Developer | Software Engineer

236 990 0823	taselablessed@gmail.com	Langley, BC

Objective

Motivated self-starter with over 4 years of experience as a programmer, including 3 years with a startup. Proficient in back-end programming and web development, with a strong emphasis on UI and UX design. Enjoy exploring new technologies, computer science, and coding, and possess a natural ability to think critically and work effectively in innovative team environments. Experienced in implementing efficient strategies and devising optimal solutions to drive success in software development initiatives.

Key Skills

Typescript	MySQL	SCRUM
Java	Postgres SQL	AWS
Angular	Bootstrap	MATLAB
Spring boot	Tailwind	Networking
HTML 5	CSS	Web socket

Work Experience

Software Engineering Intern - Merpasive, Morocco.
March 2023 – December 2023

- Collaborated closely with the Merpasive team, actively participating in daily sprints and scrum meetings to align project goals on confidential projects.
- Crafted an article blog application, enabling users to post articles, vote, and make edits, while engineering a real-time search web application using Angular and RESTful API integration. This provided users with instant access to relevant YouTube videos as they typed.
- Demonstrated adaptability and quick learning throughout the internship, consistently delivering results and contributing to the success of the Berliz project and related tasks.

Full Stack Developer - Berliz
Startup 2021 - present

https://www.linkedin.com/in/blessed-tasela-b9071920a

https://blessed-tasela.netlify.app/portfolio

- Developed a startup over three years aimed at enhancing gym and fitness lifestyles.
- Utilized Angular and Spring boot as front-end and back-end frameworks, respectively.
- Employed Tailwind CSS for intuitive and visually appealing user interface design.
- Hosted the static web application on Netlify and managed version control with GitHub.
- Implemented WebSocket for real-time updates.
- Tested static apps on AWS and hosted a database for testing on AWS as well.
- Leveraged additional libraries to enhance application functionality and success.

Hobbies

Running | Coding | Music | Art | Research | Gaming | Problem solving

Education

BSc. Computer System Engineering 2020 – 2023
École Supérieure de Management, Télécommunication et d'Informatique SUPMTI Rabat, Rabat, Morocco
